

A Message from Marina

September 2019

Dear Neighbor,

What a wonderful Milwaukee summer we had! Fall is getting closer but we still have more South Shore Farmers' Markets to enjoy!

September also marks the beginning of our school year. I was honored to join Governor Evers in Bay View to welcome back students to Parkside. My son Rafael also started his Milwaukee public education this month!

September also means we are starting our county budget process. The most important part of this work is you! Please attend the town hall I am co-hosting with Supervisor Haas on October 28. You can also fill out my survey and attend the hearing about the Domes, and consider coming to a Fair Deal town hall as well.

My colleague Supervisor Steven Shea, who represents the 8th district to our south, started a popular petition to tell the administration to preserve transit to and from the South Shore in their budget. You can [add your name here](#).

Lastly, I hope you'll come visit me at the Bay View Bash!

Milwaukee County Board Updates

Big News on the Domes

The Domes Task Force has recommended an exciting plan to restore and improve our Mitchell Park Domes. You can view the full [159-page plan here](#), or the briefer [PowerPoint here](#).

I want to hear from you. [Take my brief survey](#) to let me know what you think about the new plan.

The Milwaukee County Board of Supervisors will hold a public hearing regarding the future of the Mitchell Park Domes Wednesday, Sept. 18, at 5 p.m. at the Mitchell Park Domes Annex (524 S. Layton Blvd.).

Plan highlights include:

- Refreshed Domes programming that brings the world of plants, their ecosystems, and cultures to Milwaukee and that continues to feature changing exhibits and programs we all enjoy.
- A new welcome center, retail, and education and research hub.
- A farm-to-table restaurant, new events pavilion, food trucks, food service inside and out, and family picnic areas.
- More paths and access, better lighting, and an Improved amphitheater.
- New clean pond, stream circulation system, reflecting pool, all utilizing watershed stewardship best practices.
- Outdoor and indoor gardens and learning that includes focal points on health, urban agriculture, hands-on/apprenticeship programs, certification, and workforce development programs.
- Making sure the Domes become a sustainable economic engine for the vibrant Clarke Square neighborhood.
